

Medipak Systems at interpack 2017

Hamburg/Winterthur, February 2017 - Medipak Systems is using interpack to introduce some pioneering product innovations and will once again be presenting its pharma and biotech expertise in Düsseldorf in an area of more than 500 m².

With their integrated solutions, Dividella, Mediseal, Rondo, Seidenader, Werum IT Solutions and Fargo Automation, which was acquired at the beginning of 2017, jointly provide answers to the major challenges of the future. Consequently, at this appearance at the fair, the focus will be on the key themes of Industry 4.0, OEE optimization, falling lot sizes, increasing complexity and the 2011/62/EU directive, which comes into force in 2019. For all of these issues which confront the pharmaceutical industry, Medipak Systems provides solutions for its customers.

- Small lot solutions - from a modular machine concept to supply chain solutions
- Packaging expertise - from packaging design via product protection to smart packaging
- Serialization solutions - a scalable approach with service, software and hardware from a single source.
- Optimization of overall equipment effectiveness (OEE) - making the best use of key performance indicators

With the aid of numerous examples of applications, visitors can see for themselves the companies' holistic approach and experience completely new approaches and solutions presented for the first time to a broad public at interpack.

Visitors will find Medipak Systems in Hall 16 on Booth A25.

END

About Medipak Systems

Medipak Systems is partner to the international Pharma and Biotech Industries and provides solutions for secure and efficient processes for the manufacturing, inspection and packaging of pharmaceutical products. Global leadership in technical know-how, outstanding service and close personal contact form the basis of our long-term partnerships.

Medipak Systems unites internationally successful enterprises with locations in Germany, Switzerland, the Czech Republic, the USA, Brazil and China and offers a single source for software, materials, machines and technologies for the production, inspection and packaging of pharmaceutical products: these include Pharma Manufacturing Execution Systems, the development and production of standard and special folding boxes, innovative packaging and inspection machines, and solutions for the traceability of medicines.

Medipak Systems unites the companies Dividella, Fargo Automation, Mediseal, Rondo, Seidenader Maschinenbau and Werum IT Solutions. Approximately 1,700 employees worldwide work for our company. Medipak Systems is a Business Area of the Körber Group, an international leading technology group with around 11,500 employees and an annual turnover of €2.3 billion.
