

About Dividella

Dividella AG develops and produces pharma packaging solutions and systems for the secondary packaging of for example vials, ampules, syringes, pens, combination packs and many more. Our customers are pharma & biotech companies, amongst them most of the Top 30's. They benefit from extensive engineering support. We work together to find optimized solutions for the safe packaging of sensitive products. The goal is a low total cost of ownership through the use of mono material, optimized pack sizes for the cold chain, as well as ease of use for the end user.

Dividella has over 40 years of experience in packaging and machine development of our toloading systems. The sustainability and modularity of our solutions are unique.

Dividella is part of Medipak Systems, the Pharma Systems business area of the international Körber technology group. Medipak Systems unites internationally successful enterprises with locations in Germany, Switzerland, the Czech Republic, the USA, Brazil and China and offers a single source for software, materials, machines and technologies for the production, inspection and packaging of pharmaceutical products: these include Pharma Manufacturing Execution Systems, the development and production of standard and special folding boxes, innovative packaging and inspection machines, and solutions for the traceability of medicines. Medipak Systems unites the companies Dividella, Fargo Automation, Mediseal, Rondo, Seidenader Maschinenbau and Werum IT Solutions. Approximately 1,700 employees worldwide work for our company. Körber unites around 11,500 professionals in industry-leading companies worldwide, achieving annual earnings of 2.3 billion Euros.
